Collaborating Organization: _____

Collaborating Manager: _____

Email: _____ Phone: _____

Estimated Budget:

Total Project Cost: \$ _____

UCAIR Grant Request: \$ _____

Organization Match: \$ _____

Other Sources of Funding \$ _____

In-Kind Commitment: (staff hours) _____

Please indicate funding area: (check all that apply)

1. Reduction of emissions from area sources that contribute to both wintertime inversion and summertime ozone seasons, including but not limited to residential homes and commercial sources such as, dry cleaners, print shops, gas stations and auto body paint shops.
2. Projects and programs specifically targeting summertime precursor emissions contributing to ozone pollution.
3. Programs utilizing emerging technologies that result in measurable emissions reductions.
4. Reduction of emissions in underserved areas:
 - a) Socioeconomically disadvantaged communities.
 - b) Areas of opportunity (geographic, industry, sector) that have not received adequate financial support.

Brief Project Description:

Please provide a concise high-level overview of the project and how it will help improve air quality. Include a brief description of the location, scope, and goals for the project. Explain how outcomes will be measured and reported. Include supplementary materials as appropriate to help describe the project. If the project helps to implement an existing plan, please include a link to the plan. Provide information regarding collaboration with other organizations and other sources of funding. If submitting more than one project, submit and prioritize separate letters of intent.
